PROFILE SUMMARY

Software Engineer with a passion for web development and a strong track record of delivering innovative and user-friendly solutions. Experience in building and maintaining scalable web applications, as well as designing and implementing APIs. Expertise in database management and security. Ambitious to learn new technologies and eager to contribute to a team of talented engineers.

KEY COMPETENCIES

- **Programming Languages:** Typescript, JavaScript, C#, GraphQL
 - **Web Technologies:** HTML, CSS, SASS, NgRx store, Kendo UI, FC UI
 - **Database:** SQL, Cosmos DB, MySQL, MongoDB, Firebase
 - **Frameworks:** Angular 2+, .Net Core, Bootstrap, Tailwind CSS, Materialize CSS
 - **Version Control:** Git
 - **Tools:** Jira, Trello, Swagger, Power Automate
 - **Testing:** Jest
 - **Cloud Technologies:** Azure
-

PROFESSIONAL EXPERIENCE

Softech Systems

Mar 2023 - Present

Senior Software Engineer

- Addressed and identified gaps in requirement with product owner.
- Developed and maintained user stories and other requirements artifacts.
- Developed new features and functionality using Angular 15.
- Developed, deployed and maintained real time chat for users in web application.
- Wrote test cases to verify that our application is working as per requirements.
- Presented new features and functionality to a team of 70 engineers.

Aquila 360

Feb 2021 - Mar 2023

Software Engineer

- Developed web applications using Angular, .NET Core and SQL.
- Designed and developed new features for web applications, including a chat implementation with 50,000 active users.
- Developing microservices using .NET Core and MongoDB, where gRPC was used for internal API communication.
- Worked with product managers to identify and address gaps in requirements.
- Collaborated with QA team to resolve 100% of bugs and ensure the stability of web applications.
- Salesforce's integration within our application to transfer data.
- Implemented bulk upload functionality that allowed users to upload up to 100,000 records at a time.
- Managed and developed a custom forms website single-handedly.
- Deployed and managed projects through Azure DevOps.

TechnoCares**Nov 2019 - Feb 2021****Associate Software Engineer**
